Amazing Opportunity to purchase waterfront beach land between the Pitons in 2 lots.

One consisting of 4.38 Acres and large Plot of 19.48 Acres extending on to crown chain beach land.

This gently slopping land is simply stunning right under Gros Piton with easy access from the road. The beach is also is gently sloping with black sand actually has a much better gradient than Sugar Beach itself and would similarly lend itself ideal for imported white sand.

There is also a derelict property within the smaller plot which would potentially have grandfathered rights.

Viewing is essential and offers are invited.
